Exciting Egyptians
Year 4
Spring 1 - 2024

Maths
We will be focusing on our arithmetic skills, in particular apply our place value knowledge to solving more complicated sums.

English
Using the book, 'The Arrival', the children will be creating their own narrative and informal letter home using the story for inspiration.

RE
The children will look at what it means to be part of a community of faith and the advice given to us by St Paul in his letters. We will also be looking at the giving and receiving of sacraments as well as self-discipline.

Music
We will be playing accompaniments with more awareness of other parts and a wider range of melodies.

History
We will be looking at the Ancient Egyptians, key characteristics of that civilisation and what enabled it to last for such a long time period.

Science
We will be looking at living things and their habitats – looking at how animals can adapt to their surroundings as well as the impacts humans have had on the environment.

Art
The children will use mechanical engravings as a starting point to develop an awareness of proportion, composition and pattern in drawing. They will combine media for effect when developing a drawing into a print.

Computing
We will be looking at how to present data on computers and how this information can be manipulated and stored within a database.

Design and Technology
The children will learn a basic biscuit recipe and adapt this accordingly to suit a target audience.

PE
We will be playing net games – focusing on invasion games with different balls and beginning to analyse tactics.

PSHE
We will be looking at dreams and goals and how we can set personal targets to help us achieve what we want to.
