

Maths

In our maths lessons we will be spinning arithmetic plates and developing reasoning skills including; statistics, algebra and geometry.

English

We will be writing a monologue based on the short film The Piano and using an additional short called The Lighthouse to write a short story.

RE

In our topic of 'Sources' we will develop our understanding of how the Bible shapes the lives of us as Christians and also in our topic of 'Unity' we will explore how behaviour and feelings can affect relationships.

Science

We will be studying Evolution and Inheritance and be learning that living things have changed over time.

PSHE

During our topic of 'Dreams and Goals' we will be learning about the steps needed to reach a goal.

History

The children will be studying how the Maya lived, their technology and why they had had many gods. They will make links between the Maya and other societies they have studied.

French

We will be learning conversational skills such as telling the time and being able to say what we enjoy doing at the weekend.

Unity Year 6 Spring 1 - 2024

Music

We will be learning about the history of 'The Blues' and learn the 12 bar blues chord sequence.

Computing

We will be learning about networks and what makes a network. We will also be learning about the internet and how this is one huge network of connections.

Art Design

We will be identifying the key features of Maya art and learning how colours can be symbolic and have meanings that vary according to your culture or background.

PE

Through Tag Rugby we will be learning to apply skills and techniques to small and larger game situations.

Design Technology

We will learn to design a steady hand game, identifying and naming the components required.
