

### Maths

Children will be continuing to enhance their number and place value knowledge. Focussing on comparing and ordering 2 digit numbers, identifying patterns on a 100 square grid.

### History

Children will be learning all about great inventions, with a particular focus on the stories of two significant events in the history of travel. We will learn about the first aeroplane flight.

### RE

Children will be learning about neighbours and being sorry and will explore families in journey in love.

### Science

Children will be learning about everyday materials, exploring uses of materials and how they are used to create a variety of furniture.

### PSHE

Children will be learning about ways they have changed since being a baby and how to handle and prepare for different emotions and feelings.

### English

Children be reading a wonderful story called 'Grandpa Green,' A tale of a boy recounting the life of his great-grandfather through a topiary garden. We will then read a vibrant story called 'Cinnamon,'

This term the children will be focussing on writing a monologue and a narrative.

# Materials

## Year 1

Summer 2 - 2023

### Computing

Children will explore that text can be created in different ways by using word processing to create a text. They will gain a knowledge of opening and saving a document and to understand the value of using word processor.

### Design and Technology

Children will be constructing windmills. They will design and make a wind mill by identifying features that will appeal to their target audience and include these in their design.

### PE

Children will work through a series of activities which challenge their teamwork, trust, communication, co-operation and problem solving skills in small and large groups.

### Music

Children will be exploring composition and graphic scoring by using classroom instruments to understand how sound changes. They will be learning how to create descriptive sounds using body percussion, voice and instruments.
