

Maths

We will focus on place value within addition, subtraction, multiplication and division. We will also look at angles, fractions and time.

English

We will be learning the features of writing a play script. We will then write a play script based on the story 'Stone Age Boy'.

RE

We will study 'Listening and Sharing' by looking at the different parts of the mass. We will also explore 'Giving All' by learning about at lent and Easter.

Science

We will learn about functions of a plant looking at how water is transported and the part that flowers play in the life cycle of flowering plants.

PSHE

We will be learning how to live a healthy lifestyle by looking at the different foods eaten. We will also look at strategies to keep safe.

Geography

We will explore the world we live in focusing on countries and continents. We will use an atlas and maps to find areas and explore time zones.

Our World

Year 3

Spring 2 2024

French

We will be learning the name and recognise up to 10 animals in French.

Computing

We will explore computer networks and how they work and connected by each having unique IP address.

Art and Design

We will be looking at pre-historic art and explore how to use mix colours using natural materials. We will also explore the differences between positive and negative prints.

PE

The children will experience a variety of athletic techniques and use simple tactics to improve performance.

Music

We will explore musical dimensions, composing and listening to music to understand how sounds can be used to express feelings and images.
