

Maths

We will be developing skills in multiplication and division using the grid method and chunking. We will use pictograms to interpret data.

English

We will use the short film 'The Present' to help develop skills in writing an adventure Narrative and how to write an informal letter.

RE

We will explore the story of the Ascension and the coming of the Holy Spirit at Pentecost and the stories of the Two Sons and the Prodigal Son.

Science

We will learn the meaning of transparent and opaque, explore how shadows are formed and gain an understanding of what UV rays are.

PSHE

We will explore people who positively influence our lives. We will think about our responsibilities and the choices that may affect people around the world.

History

We will learn about some key features of the Bronze and Iron Age, comparing the similarities and differences between their home life. We will also look at the dangers they faced.

Light Year 3

Summer 1 2024

French

We will explore the French of Little Red Riding Hood to help build vocabulary and will be introduced to new phrases such as 'Il était une fois...' - 'once upon a time'.

Computing

We will explore looking at how we can navigate a website using hyperlinks and image links and think about how all information on the web may not be reliable.

Art and Design

We will gain an understanding of what a sculpture does and how sculptures are formed. Looking at techniques used to make 3D shapes.

Design and Technology

We will design and make a toy which uses a pneumatic system. We will generate ideas using thumbnail sketches and exploded diagrams.

PE

We will develop Gymnastic skills by linking actions to make sequences of movement using hand apparatus and develop strength, flexibility, control and balance.

Music

We will explore vocal, body percussion and instrumental sounds to describe moods, stories and things and compose ideas for story.
